Booming area in Provence

Horizon de Provence is a unique project, located in the French Provence, just 20 km northeast of Avignon. Beside the lac de Ventoux, with 11,902 m² GLA, this area is being completely redeveloped to become a retail and leisure destination. This satisfies a growing demand mostly due to tourism activity (2 huge leisure parks) but also by the growing demography and the correlative economy that needs to be accompanied. This retail area will offer a variety of shops and leisure, all centered around the well-being, local produce, well-eating...

Easy access by road, train or plane and a selection of amenities available on site makes it easy to see why this area is becoming a go-to destination for businesses and tourists alike.
