## An industrial past, a commercial future

Manufacture 65 is the name of a retail park near Braine-L'Alleud in Walloon Brabant. Built on a former industrial site, the architectural design has woven brand new and former industrial buildings together to create a modern, sustainable commercial hub.

Eleven retailers are now installed in more than 10,500 m<sup>2</sup> of retail space offering patrons a wide choice of goods and services ranging from home equipment and fashion, to food and beverage establishments.

Its prime location makes Manufacture 65 a magnet for the area: it is easily accessible by public transport and there is plenty of parking.

This site has swapped an industrial past for a sustainable and vibrant commercial future, one in which the local population can enjoy diverse and relaxed shopping.
