Eco living at the foot of Mont Ventoux

Patio du Lac is a new-build development besides the famous Mont Ventoux in the French Provence, just 20 km northeast of Avignon. The surrounding area, with its quaint villages and rich history, makes it the perfect place to experience the wide variety of local cultural activities in a natural and peaceful environment, only 20 mn driving from train and plane.

Over and above the 92 apartments with high quality features, each offering the latest sound insulation and design interiors, this green district includes a purpose-built lake of 10 hectares, and extensive countryside.

Easy access by road and a selection of amenities available on site make it easy to understand why this area is becoming a go-to living place for locals working in Avignon or Carpentras.
